

BILINGUAL COMMUNITY ENVIRONMENTAL PRESENTATIONS SERIES

* AT NO COST

Select your topic:	Interactive Presentations Description
1. Watsonville Wetlands 101	Discover our local 800 acres freshwater wetland ecosystem and the amazing wildlife living in our own backyard!
2. Waste Reduction	Learn how to make less garbage, while saving money. Reduce, Reuse, Recycle & Compost! Learn about the City's services and how you can make a difference!
3. Water Conservation	Learn about the City's water supply, the City's water conservation programs, rebates and ways you can save money and water.
4. Pollution Prevention	Discover how to prevent water pollution, protect your health and our environment.
Select your activity:	Tour & Activity Description
1. Guided Wetlands Trail Tour	Explore the wonders of our wetlands and witness the beauty of our local wildlife. How about a lunch hour tour?
2. Nature Center Group Visit & Trail Tour	Bring your group to the Nature Center and learn all about our local wetlands, City services, conservation and much more.
3. Litter Clean Up	Bring your family, organization or community group and help us protect our natural resources by keeping our trails clean. Make a difference in your community! Materials provided.
