Water-wise landscaping Internet resources

- ❏ The Monterey Bay Green Gardener Program provides professional training and certification in ecological landscaping. Students receive instruction on preventing water pollution from fertilizers and pesticides, water-wise plant selection, and efficient irrigation systems. Evening classes are available in English and Spanish. More information about the Green Gardener Certification Program can be found at www.green-gardener.org.
- ❏ To learn more about landscaping strategies that reduce storm water runoff and retain water on-site, refer to the publication *Slow it. Spread it. Sink it!* prepared by the Resource Conservation District of Santa Cruz County. It can be found at www.rcdsantacruz.org.
- ❏ The Water Smart Gardening website and CD are available with many resources to help you with garden planning. This interactive tool features low water-use plants and allows you to create a customized plant list that is suitable for your particular site. You can find the website by using the link at www.watersavingtips.org.
