

# Water Waste Report Form

Thank you for contacting the Watsonville Public Works and Utilities Customer Service to report a situation regarding water waste or a violation of water restrictions. Please provide specifics such as the time and date when you observed the water waste, the exact location where it occurred, a brief description of the problem, and how long the situation has been observed.

If you are reporting a water emergency, please call Customer Service at (831) 768-3133.
