Alternate Method Pre-review

Watsonville 2015 Population Calculation

Hi Emma —

I read your description of the population methodology, but still have a couple questions. It sounds like the method was good, but there might be a few more bits of information to add to the description. I think this is easiest to do over the phone. Please feel free to call me at your convenience, but note that I will be on vacation beginning this Friday, March 18th and returning Tuesday March 29th.

Hi Gwen,

The City of Watsonville’s GIS center calculated our 2015 population. I’ve attached the spreadsheet used for calculations, as well as a description of the method. Let me know if you need anything more to pre-review this method.
